

ESG Statement for 3D Global Financial Services Ltd

At 3D Global Financial Services Ltd, we are committed to integrating Environmental, Social, and Governance (ESG) principles into our investment strategies where appropriate, in line with MiFID II regulations and EU Sustainable Finance Disclosure Regulation (SFDR). We believe that sustainable investment choices may enhance long-term value for clients, communities, and the environment.

Our approach includes an assessment of ESG factors to understand how investment funds monitor environmental impacts, contribute to societal wellbeing, and uphold strong governance practices. Central to our process is ensuring that these investment solutions are aligned with each client's individual suitability profile. We evaluate ESG preferences during our suitability assessments to match clients with sustainable investment products that reflect both their financial goals and values.

3D Global Financial Services Ltd offers a range of ESG-focused solutions, supported by transparent, clear information on ESG metrics to help clients make informed decisions that align with their unique objectives and sustainability preferences.

We regularly review and update our ESG policies and monitor developments to ensure our services remain aligned with regulatory standards and best practices. Our commitment is to provide responsible investment options that foster sustainable growth while meeting the suitability needs of our clients for a resilient future.
